THE China Gazette has been informed the the dispute between the native Christians and the Chinese in Chusan has been settled by the French Bishop of the diocere, and the captain o the ergiser Inconstant, acting in concert with the local efficials. The two French officers paid a visit to the mandarin. The Chinese at once agreed to restore, the land in dispute and rebuild the destroyed buildings, and a peaceful solution of the difficulty has been thereby attai ed.

THE French Consul-General of Shanghal having been informed that a disturbance was threatened in Wouyang-iu, in the adjucent province at Kingse, telegraphed to the Viceroy Chang Chih-tung on the subject and, according to the China Ganetie, received a reply to the effect that that official had sent stringent telegraphic orders from Nanking to the district that the local officials were to make enquiries into the origin of the disturbance, to arrest the offender and punish them severely.

ACCORDING to the Grashdanin, a number of Chinese will shortly go to Russia in order to gindy the conditions of Russian military service, and will be attached to different regiments. The Politische Correspondens learns from St. Petersburg that the Tsar has sanctioned an arrangement whereby one hundred and twentyfive Chinese Army officers of different arms are to be attached for three years' regular service to various Russian Regiments in Europe, and has further authorised the admission of fifty Chinese Army officers Into Russian military institutions

IT is stated in a recent issue of Dairio de Manila that the Gaceta de Madrid contains a Royal Decree, laviting tenders for a floating dock capable of taking in ships of 12,000 tons for the Assenal in Subic, and a roo-ton dredger for same. Tenders must be in within 3 months from date of publication in the Gazette. In the presmble of the decree, after speaking of the progress made in the Philippines and the future contingencies which way arise from the late occurrences in the Far East, it is said the Government has decided that the Amenal in Suble is to be rehabilitated and made at the same time an impregnable military port for the defense of the Philippines.

Wz read in the Straits Free Press that on the 21st instant there arrived in Singapore, by the steamer Fantes from Relantan and Tringganu, his Excellency Phys Dib Khoss, the Siamese Special Commissioner to Kelantan and Tringgane, who has been for a considerable time charged with the duty of securing the capture of s party of Malay refugees from Pahang who were prominently concerned in the rising of 1892 and with instigating the later raid in the Tembeling District. The rebel chiefs, who have been harboured in Kelantan and Tringganu, have been expended by Phys Dib. and it is thought that their arrest will secure Pahan; against any recurrence of the disagreeable incidents of 1892.

THERE is, says the L. and C. Express of the 27th tiltimo, no truth in the announcement made last week that a Franco-Russian Ioan for China will shortly be Issued. It is true, however, that several Russian and French banks have combined to form a bank in Shanghai with a capital of 20,000,000 fr., and have already sent delegates to China in order to complete the organisation of the new enterprise by the commesement of 1806. The Governments of Russia and France are favourable to the new undertaking. Though it is stated that M. de Witte went to Berlin to take medical advice, it and the General Managers are Mesars, Arnhold, is certain that he had also financial objects in ylew. M. Rothstein, the director of the Russian Bank of Commerce and Industry, who played a prominent part in the floating of the Franco-Russian Chinese Loan, is also in Berlin, and their business is, doubtless, as stated above.

the phrenologists." We are told in the Phrenological Magazine for July that he posseses " a truly magnificent organisation, and a fine balance of the motive and vital temperaments, with a full degree of the mental." He has, moreover, " a marvellous amount of vitality and knows how to use it to advantage." Mentally, however, "he is not burdened with a broad head-hence thinks and acts on the spur of the requires." Nothing very novel in this informaspur of the moment," he would, we are afraid, have fewer runs to his credit.

THE Johan Mail of the 14th has the following editorial remark on the recent coup d'ital at Scoul :- Japan, since April last, has been attempting the impossible task of directing Korean affairs without authoritatively interfering in them. The feat was not beyond the capacities of a statesman like Count Incure, who has the rare power of exercising authority without wielding t, and directing affairs without strotching out a visible hand to guide them. Had Count Inouye remained in Scoul, the recent horrors would not have been perpetrated. But the supply Count Inouyes is limited, and so soon as it fails the public at once becomes conscious of the impossible task that Japan is essaying in the peninsula. She abstains from controlling interference, yet attempts to accomplish results quite unattainable without interference, and while incurring all the risks of responsibility, she possesses no means of discharging it. Incidents like the Talwenkun's barbarous coup d'état will be counted to her discredit, and the sooner she places something more than happy chance between herself and their recurrence, the better for her fall fame. We do not see how anything but disrepute and disaster can result from the programme of drift that she is now pursuing.

CHINESE RUMOURS.

A PLOT NIPPED, IN THE BUD.

Last night and to-day rumours innumerable of rebellions in Canton and foolbardy plots have been affast in the Colony. Our special -correspondent began by telegraphing yesterday Chinese officials there are very anxious to locate that 'i Ka-chuk, the officer in charge of the native guards of the Shameen, and 50 conspirators had been strested in the city. From other dispriches received here it is learned that this officer himself arrested filly men who were believed to be engaged in a plot to burn the Shameen. But in the meantime the plot had taken a different line in Hongkong: Two or three prominent and well-known Chinese have been DR. W. G. GRACE has now come under the notice | busy for several days in engiging coolies here, estensibly to go as soldiers for the Imperial Authorities. These men were sent on board the steamer Powas on Sunday night, each being given \$1, and told they would be instructed on board. They were accompanied by three men with money. When the steamer had left the coolles were informed that on reaching Capton moment, and as the necessity of the occasion they would be supplied with arms, and that they were to rebel against the Manchu dynasty. The majority of the cholles backed out and left the steamer at Whampon. The leaders became scared and also left the steamer before reaching Canton. This moraling our Canton correspondent

"Canton, October 29th.

11.30 a.m. "Foriy-six parsengers were arrested on the arrival of the steamer Powan yesterday, believed to be engaged in a plot to overthrow the Government. On searching the steamer six barrels, shipped as cement, were found to contain arms, and were selzed. There is great anxiety here, and H.M.S. Pique is expected. berg to protect the foreigners."

This confirms the informations of the Police. who had heard of the shipment of the arms. The Pigmy arrived in barbour at 10 o'clock this morning from Foochow and at once left for Canton without anchoring, thus confirming the

latter part of the message. In addition to this foolbardy attempt by men in Hongkong, there are remours of large bodies of men marching on Canton from various places, and the Chinese here seem to expect that there will be an attempt made to drive the Viceroy and Imperial troops out of Cauton. This, time alone will prove. But it is noteworthy that the name of the Black Fine leader who has just made such a flasco in Formesa should be upon the lips of every one. The Chinese seem to be on the lookout for a Messiah who is to lead them against the Manchus, and in spite of, or perhaps in consequence of, his failure in Formosa, the redoutable Liu Yung fuk is. now looked to av this long-expected saviour. We may hear more of him in the near future. His whereabouts is at present unknown to the foreigners in Hongkong, but we may soon hear that he has allpoid through to his old hunting grounds, and, after gathering up his old mon, is marching on Canton.

INTER-COLONIAL CRICKET MATCHES.

Residents, Shanghai.

The Singapore Pres Press in a recent issue When the mail left Hongkong the other day

there then appeared, on private information that resched us, to be but "little prospect of a representative team from the Northern Colony being able to visit Singapore in order to take part in the matches arranged between the Straits, Caylon, and Hongkong, The lapse of two or three days must have put a much more favourable aspect on the position of affairs, for we now hear that on Saturday morning the Committee of the Singapore Cricket Club were in re cipt of a telegram from Hongkong to say that seven men are "certainties," and that practically it is assured that Hongkong will send a team to meet the cricketers of Ceylon

This, then, decides that the first of the two alternative programmes to be the one to be followed in arranging the fixtures for the "Singapore Fortnight" of 1895-96. The fixtures

for are as follow :-Dec 24th and 26th (with 25th if necessary):-

Singapore v. Penang on S.C.C. Ground, Honkong v, Ceylon on S.R.C. Ground; Dec. 27th and 28th

Straits v. Ceylon. Dea goth and grat :-Straits v. Hougkong,

Jan. and and ard: Native States v. Ceylon on S.R.C. Ground. Hongkong v. S.C.C. on S.C.C. Ground,

Jan. 4th, 6th, and 7th :--Straits v. Ceylon and Hongkong. In a later issue our Straits contemporary states !- We hear privately from Hongkong that

there is little prospect of a team getting away from that Colony for the Christmas cricke. But we feel ours that Bingspore will continue to hope

desired visit coming off. When Hongkong has a chance of meeting Ceylon midway it is infinitely regrettable that the Hougkong men cannot bend circumstances to their will and come, no matter what the obstacle.

THE FAR EASTERN QUESTION.

HOW LOST PRESTIGE IS TO BE REGAINED.

There can be no doubt, says the Z. & C. Express, that during the shuffling of forces that has taken place as a result of the Far Eastern war that Great Britain has not maintained her position. [This is perfectly true. Ed. H.K. T.] We have remarked this several times, and think the blame must be primarily laid at a want of perception on the part of the late Foreign Secretary in Downing Street. Had there been less blindness apparently in London, when the war seemed imminent, we should possibly not have lost the position we had held in the Far East for something like half a century. As it is, British diplomacy will have a hard fight for some time to regain the lee-way, though with Mr. Geo. Curzon we are inclined to think that the Power which holds India must always have a dominant voice in the affairs of Eastern Asia. In the meantime the position we have lost is to a French Syndicate whose representative is being rubbed in by the special correspondent of . The Times in a series of letters published by that journal, and which recall to us once more the greatness of the issues that still have to be worked out is the .Far East at no distant date. In a leading article that journal is inclined to lay the blame on Lord Rosebery, who convicted himself even while he uttered his warning about the fature. He evidently regarded the Far Eastern Question, states The Timer, as having been " superadded" to our other cares by the war between China and Japan, and also as concerning the statesmen of the future rather than those of the present. Our commercial preponderance is not now in the same .ratio, and with its diminution has likewise come about a loss of place was required to point out the change that done in the future to regeln our lost prestige will to distressed, subjects of tributary states have have to be real and earnest. The war has, so far, brought out no new Chinamen with an appreciation of their country's needs, and the national character is not such as to give hope that any will appear. One would expect more from the Manchus than the Chinese, had they not 'become so Chinesicised' themselves after corquering the Empire. . The consequence is that Europe has almost literally got another sick man on its hands in the East of Asia, as it has long had in the East of Europe. Yet, as The Times points out, if we no longer stand apart, we still have a magnificent p-sition in the maintain. It can be maintained by energy, capital, industrial enterprise, and commercial aptitude, if these things are duly put in operation, and properly backed by intelligence and foresight at the Foreign Office. But, adds the Express, it may as well be said plainly that the greatest European Powerin Asia, and it behoves us to so protect our interest, and make our influence felt in the ratio that we are entitled to.

CHINESE ENGINEERS.

The following is the text of the official report | The powder works pour the Yangsu gate are on the final examination of engineer students at the Imperial College at Nanking, referred to in last Saturday's Issue :-

To H.E. Kuai Sung-ching,

Commissioner of the Naval College, Nanking. Your Excellency,-I beg to hand you herewith the result of the examination of the Engineering Students, and I also enclose copies of the papers which, as you will see, are very comprehensive -including, as they do, the chief subjects that Naval Engineers are required to know.

In drawing up these paper: I have been chiefly guided by the questions given at Greenwich College for the final examination of Engineer Students for the British Navy; and the questions have given are very similar to those given

The papers on Theoretical Engineering, Burma there was a decrease of 69 cases. Engine Design, and Calculations, Mechanics, Hydrostatics, Hydraulics, Mathematics, etc., are, as you will see, difficult ones, and I consider the students have worked them very well indeed.

In drawing up the Papers on Practical Engineering, which are rather easier than would be given at Greenwich, I have had to take into consideration the situation of the College, being ing wheel from their steam-launch. It was so faraway from any engineering establishments; traced to a pawn-brokers, but the pawn-broker and the difficulties under which the students refused to deliver it till paid the Tole. to lent on work in never being able to see the practical it. The police refused to ar est him for receiving part of the designing and construction of naval stolen property, though ultimately he was placed

machinery. As you will see from the enclosed list, the maximum percentage of marks obtained is 04.4. and the average of the whole class is 65.5. This is, I consider, a very good result indeed, reflecting the highest credit on Professor Hearson, and one which I am sure will be very gratifying to you, especially when you consider that the students are learning a foreign profession, in a foreign language, and that besides this they have to keep up their Chinese studies as well.

I have been very much interested in the way in which the College is conducted. The smart appearance of the students, their drill, discipline, and orderly ways do great credit to all concerned. and you are to be congratulated on having such an efficient establishment for training officers for so impostant a service as the navy.

These students having now completed their to the amount of go,coo yen face value were college education, will of course be placed in issued on the 16th last. bostnore where their knowledge will be of the !greatest service to the country. A telegram from Shimonoseki dated October 16th announces that the steamer Chow Chowfoo has sunk, and that a salvage party from Osaka has proceeded to the scene of the wreck. to try to raise her.

THE "WEILAND" ABLACE

The German steamer Welland, reported recently to be on fire at Singapore, was scuttled on the 21st instant, as she lay, alongside the wharf, that being the only way in which the fire could be extinguished. Up to date of latest advices from the sister colony it was impossible to estimate the full extent of damage sustained by the vessel, but it must be very considerable.

NEWS BY THE AMERICAN MAIL.

The following telegrams from our San Francisco exchanges were "crowded out" of last Salurday night's issue :--

LONDON, September 24th. It is announced that, with the sanction of the Czar, a' Russian bank with very large capital will be opened for business soon at Peking, with wbranch at Shanghal. Some of the most prominent financiers and merchants in Russia are interested in the scheme, which has been secretly carvassed. The charter has just been lesued.

The enterprise is regarded as another indication of Russia's determination to wre't the commercial as well as the political supremacy in the Far East from Regiand. Trading emissaries of Russia have freely assisted the Government of China with money and have already penetrated to the interior of China, where they are supplenting the British.

The Times to-day says that there is no ground whatever for the assumption which has been made by a portion of the American press that Charles D. Rose intended by his challenge i r the America's cup to in any way conver an impression of disapproval of the course of the Earl of Dunraven in the matter of the Defauder-

Valhyrie races. The Evening Standard says : The announcement that Mr. Rose has challenged for the America's cup will create the same dissatisfaction here that it is said to have produced in New York. There was every reason to hope that no British yachtsman would issue a challenge for this trophy until the unfair and illegal deed of

gilt had been canceled, It is extraordinary that a challenge should be hastily dispotched by a gentleman who is so little known in yachling circles, and it seems to bd a reflection on Lord Dunraven. No one grudges the notoriety that is to be gained by the building of a yacht when the owner confines himself to racing in British waters, but when if comes to a claim to represent British yachting in an international contest, any challenge given under the existing circumstances must bring a verdict from English yachtsmen unanimously

hos ite. Aust w Tex., September 26th. This aft rnoon Governor Cuiberson Issued a call for a special session of the Legislature to consider, prize-fighting. It is said that the Governor hopes to secure the repeal of the occupation-tax law and thereby prevent the Corbett-Firstimmons fight. Public opinion commends the Gavernov's action.

The Governor's proclamation is as follows :-I, Charles A. Culberson, Governor of the State of Texas, by virtue of authority vested is me by the constitution thereof do hereby call a special session of the Twenty-fourth Legislature to be convened in the city of Austia, beginning at noon, Threeday October 1, 1804, for the following purposes:

First—To denounce prize-fighting and kindred practices in clear and unambiguous terms and prohibit the same by appropriate panalties, putting the aw into immediate ope ation and making necessary provision for its enforcement so that the proposed exhibition of this character within this State may be prevented, the undoubted will of the people upon the subject respected and this affront to the moral sense and enlightened progress of Texas saved.

progress of Texas saved.

Second—To consider and act upon such other matters as may be presented pursuint to section 40, article III, of the constitution.

NEW YORK, N. Y., September 26th. Accompanied by Sir Edward Russell, Irwin C. Stump, Ned Townsend and W. J. Ritchie, J visited Corbettt at his training-quarters. He did four hours' work of the most exacting kind. All the stories about his falling off are nonzense. He is as quick as a cat and as strong as an ox-He is even now in championship form,

WILLIAM GREER HARRISON, A syndicate of Californians are ready to back Choyneki for \$20,000 against Pitzeimmous, whether Fitzsimmons wins or loses the match with Corbett.

... LEIPSINO, Sepember ayth. The Gerichi Zeliung say that as a result of the er est of a Frenchman and a German woman at Cologne, four Germans have been arrested at Essen, Magdeburg, and Berlin, all connected with an extensive system of espionage promoted by the French with the object of obtaining drawings of the defence work."

LOADOW, September 28th. Lord Salisbury is still in his Normandy retreat and the date of his return continues to he spoken of as October 12th, but the impression has grown here among men of affiles within the past fow days that he is likely to come back earlier. There seems to be something grave on In the far East. It is difficult to get at definito details, but apparently a critical point has been reached in the progress of what may be called in a general way the partition of China. The fact that new developments have arisen is confirmed by complications from numerous sources. Naval and military clubs are suddenly full of surmises. The gossip is based on signs of unusual activity which officers at ports have observed. When the first of those was reported, it was assumed that they referred to the Armenian affair.

September 20th. The Standard says, regarding the Chinese situation :- The position of the Chinese Government is extremely perilous. It has enough on its hands without a quarrel with England. It is too soon to say that the fall of the Manchu dynasty is imminent, but the news of the spread of the Mohammedan insurrection in the province of Kan-su is alarming. The British demands must be supported by the presence of our fleet in the Yangisze-klang, if not by the occupation of Nanking,

such a shock. If the Mohammedans of the West find a leader, and if at the same time the the peers, a revolution is inevitable.

Berlin, Sopt. 20th. The prolonged stay in Berlin of M. de Witte, of the Bank of St. Petersburg, has given the endeavoring to induce Germany to participate s merely a diplomatic figure of speech.

Gesellschaft and other German bankers would Meil to Shanghai \$1.20 per ton coal, nominal. become interested, M. de Witte said he Nagasaki to Shanghai \$1. Toperton cont, nominal. had told the bankers with whom he had interviews that if any further arrangements to c:nuection with Russo-Chinese finances were required they would be conducted through German houses.

The Cologna Gazetta, apropos of the reports Minister de Witte on the question of taking a share in a new Russian state loan, warns them. to keep aloof from all financial projects in which M. de Witte is concerned, and, pursuing the subject, reminds them that since he had obtained control of the finances of Russia the debt of that ampire had been lacreased by

"" If Russia herself or any Russian enterprise wants any more money," says the Gazette. "let the French lend it to them."

Last Friday's newspapers chiculated the story that M. de Witte had broken eff negotiations in connection with his project for the formation of an electrical company and had suddenly left Berlin. This story has been exploded, however, as M. de Witte is still in Berlin. It had its origin in the departure of the agent of the Bank of St. Petersburg, who, by the way, lived in the same hotel with M. de Witte while here.
